Love Bug

The Holy Spirit helps us show God's love to others.

Directions: Make a "love bug" to remind you to show love each day.

1. Color and cut out the love bug below.
2. Glue the bug onto construction paper and cut it out.
3. Punch holes through the circles in the top of the head.
4. Poke a craft stem through each hole and twist to make antennae.
5. Decorate the bug with heart-shaped spots if you wish.
6. On the lines write some ways you can show your love for others.
Then place your finished creature where it can "bug" you to show love each day.
