

A Marriage and a Miracle

According to the Gospel of John, the first miracle Jesus performed took place at a wedding. Jesus had gone with his mother and a few of his disciples to a marriage at Cana in Galilee. During the celebration Mary learned that there was no more wine for the guests. She asked Jesus for help. At first Jesus told Mary that his hour had not yet come. Soon after that, however, he did as Mary asked.

Jesus told servants to fill some large jars with water and to serve the guests from the jars. When the servants poured the water, they discovered that it had become wine. There was plenty for all the guests.

Make a Storyboard

On a separate sheet of paper, make a storyboard that tells the story of Jesus turning water into wine at the wedding of Cana. Include at least four panels in your storyboard.
