## Be Part of the Solution!

*God calls us to care for all his creation. Unfortunately we sometimes forget this responsibility. Pope John Paul II said, "Faced with widespread destruction of the environment, people everywhere are coming to understand that we cannot continue to use the goods of the earth as we have in the past." He called upon people to take action against things that threaten the environment. As Catholics we are called to be good stewards of all God created.*

### Making a Difference

Choose one of the environmental issues below. Then write five simple things you can do to help solve the problem. Remember that little things can add up to big changes. We must make an effort to protect God's creation every day.

#### Problems We Need to Solve

Overflowing Landfills

Deforestation

Endangered Animals

Air Pollution

Water Pollution

Energy Dependence
