David's Psalms of Praise and Thanksgiving

David's power and arrogance led him to make some bad decisions. Although he acknowledged his mistakes and repented, David still had to live through some very serious consequences. Over time David worked hard to restore his relationship with God and become a great king. He sought God for help in every decision and wrote many psalms of praise and thanksgiving to the Lord.

Write a Psalm

Think about a situation in which God answered your prayers for help and guidance. Then follow the pattern below to write your own psalm of thanksgiving to the Lord.

1. Recall the prayers in which you asked for help.
2. Recall how you think God answered those prayers.
3. Praise God for his response and guidance.
4. Thank God for all that he does for you.
